

Speak with confidence

Micro Voice Amplifier

Micro Voice amplifier is perfect for people who suffer from a weak or strained voice, or for people who use their voice intensively.

If you are recovering from an operation, or if you have more permanent injuries to your vocal chords, the voice amplifier will help you to speak loudly without straining or injuring your voice further.

ABILIA

EVERYTHING YOU NEED FROM A VOICE AMPLIFIER

Micro Voice has excellent sound quality, which gives you a loud, clear voice with reduced distortion and audio feedback.

Not only is the battery fast to charge, but it also has extra hours of durability. That means you do not have to worry about whether the device is charged every time you leave the house.

EASY TO USE

Only the functions necessary for simple and intuitive use have been included - which allows you to simply switch on the voice amplifier and speak into the microphone. The colourful LED lights show which mode the device is in.

DESIGNED FOR EVERYDAY LIFE

Micro Voice has a discreet, black casing in a compact format, and is easy to wear or hold in one's hand.

Thanks to the mute function, you can continue to speak privately with those around you without switching off the voice amplifier.

TAILOR-MADE FOR YOUR LIFESTYLE

The voice amplifier is delivered with a quality headset (AVI). A discreet Lapel Clip Microphone which can be fastened to clothing and a Transdermal Microphone, which can be placed near the throat to pick up weak noise are offered as optional extras. The audio output can also be connected to an external device, e.g a loudspeaker.
